

## What, where, who and when is WACHacks?

This is covered in depth on the “Sponsorship Prospectus” document. Please read that document prior to this proposal, so that you get a better sense of what we’re offering to you in general.

## Why should Vonage sponsor WACHacks?

We’ve listed a bunch of reasons for any sponsor to contribute to WACHacks on the Prospectus, but here are two that may be of particular interest to Vonage:

- **Recruiting opportunity.** The West Windsor-Plainsboro (WW-P) School District is home to some of the top STEM kids in the nation, particularly hackers (a few sophomores last year won a major high school hackathon!) We’re also inviting top talent from major STEM schools around the state such as Bergen County Academies and Union County Technical schools.
- **Marketing opportunity.** The West Windsor-Plainsboro School is 60% Asian by demographic, and so this is a great opportunity to market Vonage phone plans to customers who may be interested in your international calling plans!

## How can Vonage sponsor WACHacks?

- **Donate money** to give us the flexibility we need to acquire items for the event. WACHacks is partnered with Fundbucket, a registered 501(c)3 nonprofit organization. Please see the Prospectus document for an explanation of benefits based on donation amount.
- **Send mentors** to help hackers make the most out of projects involving hardware.
- **Send a judge** to have expert opinion inform our selection of the best hacks.
- We’re open to other options as well! Feel free to shoot us an email with any ideas.

Please reach out to us if you have any questions or concerns at [sponsor@wachacks.com](mailto:sponsor@wachacks.com), or to any of the event directors personally:
